EXPERIENCE TIMELINE

AI Creative Lead

Jun 2025 – Present

Phibious Vietnam

- Architected and deployed a self-hosted AI production infrastructure (RTX 5090, ComfyUI, Flux, Ollama) that increased creative output by 60% while eliminating cloud dependency across 5+ SEA markets.
- Built and led a cross-functional enablement program, training 20+ producers on prompt engineering and AI ethics—establishing the agency's first AI Center of Excellence.
- Designed a synergy matrix bridging Pre-Production, AI Generation, and Post-Production for high-volume, social-first campaigns.
- Developed a multi-channel TikTok affiliate ecosystem achieving 19% peak CTR and 0% dead orders.
- Delivered end-to-end campaign for GAM Esports (EWC 2026), including an AR application and a viral physical stunt.

eCOM Design Lead

Sep 2023 – Jun 2025

P&G Southeast Asia

- Directed visual strategy for P&G's Hair Care portfolio across 6 SEA markets, driving double-digit eCommerce growth.
- Managed regional design team and external agencies, overseeing 200+ digital touchpoints annually.
- Reduced asset turnaround time by 30% through process optimization, reusable templates, and component libraries.

Associate Brand Manager (Design)

Nov 2020 – Sep 2023

P&G Vietnam

- Developed core visual concepts and brand identity systems for major product launches outperforming engagement benchmarks by 25%+.
- Served as regional design authority for the Hair Care category, enforcing corporate identity systems across all retail environments.

Production Creative Lead

Dec 2019 – Nov 2020

INN SaiGon

- Directed photography/video for 30+ luxury hospitality, F&B, and retail accounts, managing budgets up to \$50K.
- Established a visual QC framework reducing post-production errors by 40% and standardizing quality.

• Graphic Artist

Le Meridien Saigon 2016 – 2017

• Animation Designer

Adidas Sourcing 2015 – 2016

KEY PROJECTS & TECH

Fineline 2025 Brand Platform: Effortless Confidence

Brand Strategy · Art Direction · Audience Segmentation

Developed strategic platform and complete art direction for product launch. Built three-pillar framework, designed SKU-specific identities, and crafted Gen Z segmented concepts ("Scent of My Uni Life").

Vietc (Viet+) — Native Rust IME Engine

github.com/vndangkhoa/vietc · Open Source Development

Solo-developed a Vietnamese IME in Rust featuring a custom Backspace-Replay engine to eliminate state desync. Includes multi-method injection and 1,218+ automated test cases.

Self-Hosted AI Production Infrastructure

Pipeline Architecture · Prompt Engineering · Automation

Designed an on-premise AI generation stack capable of enterprise-grade media without cloud dependency. Built custom ComfyUI nodes and SOPs spanning from script generation to automated localization.

RECOGNITION

- **P&G SEA Digital Awards:** Best Digital Campaign, 2024
- **RMIT Student Showcase:** Best Artistic Work (Hyper-realistic Hand-drawing)
